

Child Safety Matters

A Partnership with Bivona Child Advocacy Center

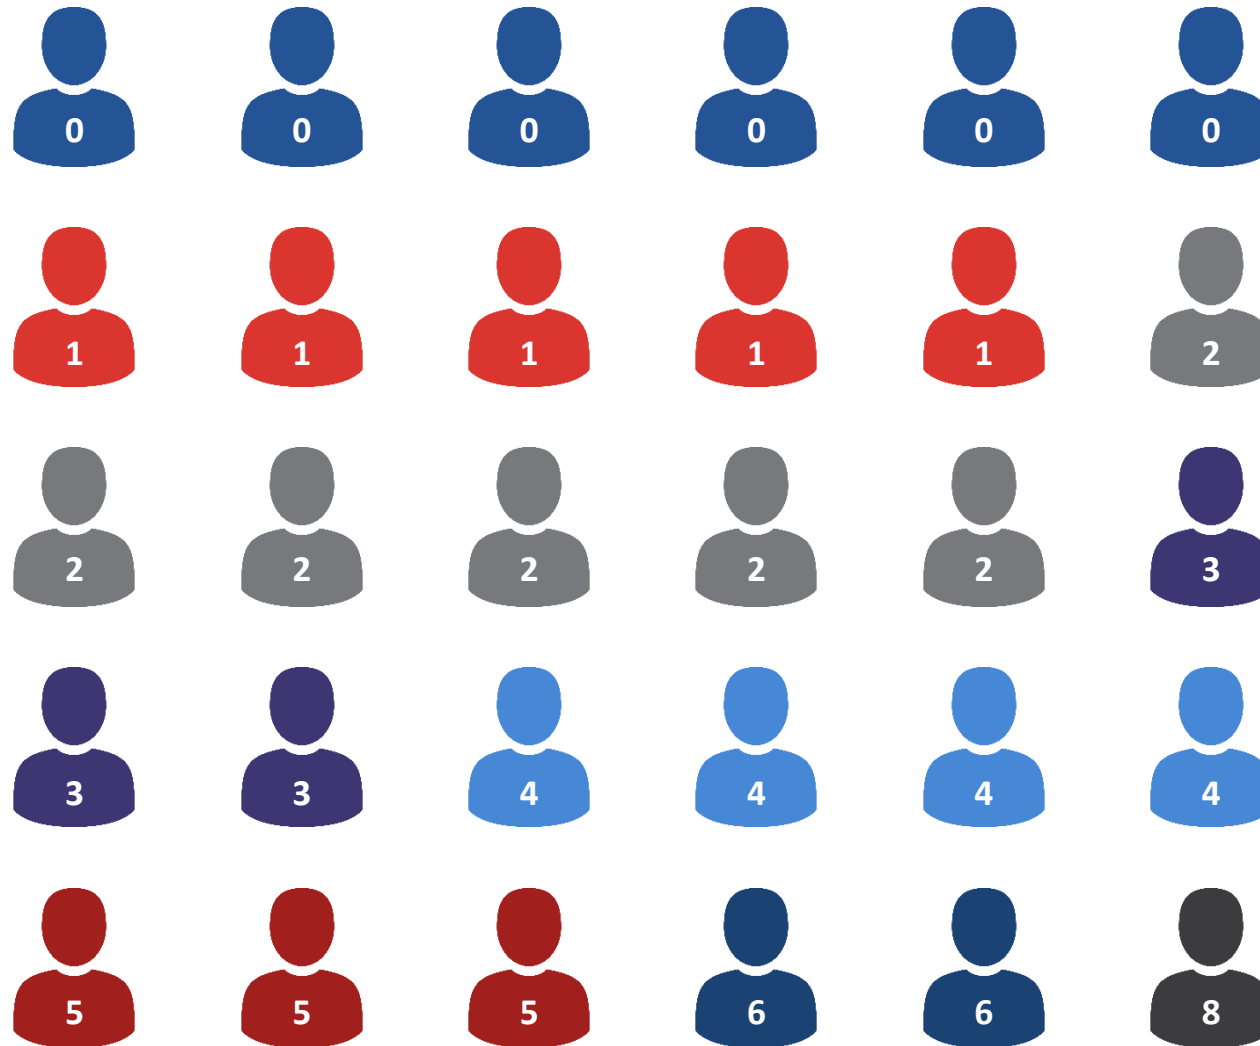

Why Do We Need a Program?

What are the Classroom Implications?

Students with higher ACE scores are more likely to need special education services, fail a grade, score lower on standardized tests, have language difficulties, be suspended or expelled, and have poorer health.

Classroom Lesson Structure

Lesson 1

- Personal Safety
- Safe Adults
- Safety Rules
- Types of Abuse
- Who Harms Kids & How

Lesson 2

- Bullying
- Cyberbullying
- Digital Safety
- Digital Citizenship

5 Safety Rules

Know What's Up

Spot Red Flags

Make a Move

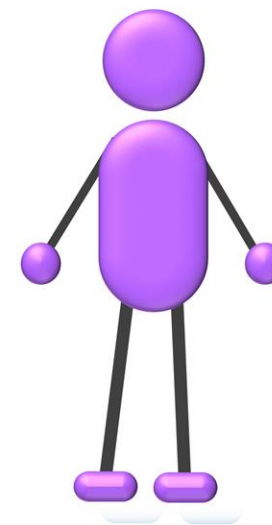

Talk It Up

No Blame | No Shame

No Blame | No Shame

Practical and Easy to Implement

- 2 easy to implement, age and developmentally appropriate classroom lessons per grade, delivered by certified facilitators (counselors or teachers).
- Includes reinforcement materials and activities for classrooms, schools, and parents.
- Educates and empowers students in grades K through 5, as well as school staff and parents.
- Fun and engaging for children.
- Helps schools meet statute and policy requirements.

Neglect

Food and clothes

Someone to take care of you

Medical care

Neglect is when a child is not getting what they need to be healthy and safe.
