Dear Parent/Guardian:

Re: Vaccine requirement for 7th & 12th grade students for the 2019-2020 school year

The **meningococcal conjugate vaccine** is required for school entry effective September 2016. **Students entering grade 7 are required to receive one dose of meningococcal conjugate vaccine. Students entering grade 12 are required to receive two doses of meningococcal conjugate vaccine.** However, if the first dose was received at age 16 years or older, then only one dose will be required. Students entering pre-kindergarten, nursery school or day care on or after September 1, 2016 must have received immunization against polio in accordance with ACIP minimum intervals. Please refer to the "New York State Immunization Requirements for School Entrance/Attendance" for the 2019-2020 school year on the reverse side of this notice for further detail.

If you have any questions or concerns about immunizations, please contact the school nurse:
