SUBJECT: SEARCHES AND INTERROGATIONS

Students are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband seized on school grounds or in a school building by a School District employee only when the School District employee has reasonable suspicion to believe the student is engaging in proscribed activity which is in violation of school rules and/or illegal.

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

- a) The age of the student;
- b) The student’s record and past history;
- c) The predominance and seriousness of the problem in the school where the search is directed; and
- d) The urgency to conduct the search without delay.

If reasonable suspicion exists to believe that a student possesses a weapon, it is permissible for a School District employee to frisk that student.

Scope of Search

School officials are authorized to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will produce evidence that the student has violated or is violating the law and/or the *Code of Conduct*.

School officials, whenever possible, will seek the least intrusive means to conduct a search to safeguard the privacy interests of students in their person and property.

Strip Searches

Strip searches are intrusive in nature and under no circumstances will any school personnel conduct a strip search of any student. For the purposes of this policy, requiring the removal of an outer coat or jacket, or shoes and socks, shall not constitute a strip search.

Parent Notification

The student's parent or guardian will be notified if any illegal, prohibited, or dangerous articles or materials are found in the student's locker, vehicle, or other property or possessions, or on the

student's person, as a result of a search conducted in accordance with this policy.

Documentation of Searches

The designated school official conducting the search will be responsible for the custody, control, and disposition of any illegal, prohibited, or dangerous items taken from the student. The school official or designee must clearly label each item taken from the student and retain control of the item(s) until the item(s) is turned over to the police or secured by alternate means.

This school official will also be responsible for promptly documenting information about the search including, but not limited to, the reason for the search, the purpose of the search, the type and scope of the search, and the results of the search.

Lockers

Lockers are provided by the school for student use and the administration has the right to search lockers. A student may have exclusive use of a locker as far as other students are concerned but he/she does not have such exclusivity over the locker as against the school authorities.

Questioning of Students by School Officials

School officials have the right to question students regarding any violations of school rules and/or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. The student's parent/guardian may be contacted; the degree, if any, of parental/ guardian involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials (at least until after the questioning of students by school authorities has been conducted) are not required to give the so-called (Miranda warnings) (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

If deemed appropriate and/or necessary, the Superintendent/designee may also review the circumstances with School District legal counsel so as to address concerns and the course of action, if any, which may pertain to and/or result from the questioning of students by school officials.

Law Enforcement Officials

It shall be the policy of the Spencerport Central School District that a cooperative effort shall be

maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions. The School District's administrators shall at all times act in a manner that protects and guarantees the rights of students and parents.

Interrogation of Students by Law Enforcement Officials

If police are involved in the questioning of students on school premises, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may only interview students on school premises without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal) or the questioning of students concerns a crime committed on school property. If the police wish to speak to a student without a warrant, they should take the matter up directly with the student's parent/guardians.

Child Protective Services' Investigations

Occasionally, Child Protective Services (CPS) may desire to conduct interviews of students on school property. These interviews generally pertain to allegations of suspected child abuse or maltreatment. The Board encourages cooperation with CPS with respect to access to records and access to any child named as a victim, any of the victim's siblings, or any other child residing in the same home as the named victim, in accordance with applicable law.
