NOTICE OF PENDING PESTICIDE APPLICATION

This notice is to inform you of a pending herbicide and pre-emergent application to the grounds of the Spencerport Central School District. The grounds areas of the district have been scouted within our program of Integrated Pesticide Management. The grounds areas will be treated to kill vegetation growth directly under and around them. These measures are very similar to homeowner control of unwanted vegetation. A pre-emergent will also be applied to deter future weed growth.

If you wish to discuss it with the designated school pesticide representative (Director of Facilities), please call the Facilities Office at 349-5195. Precautions are being taken to protect you and/or your child from exposure to these pesticides. Further information about the product being applied, including any warnings that appear on the label of the pesticide that are pertinent to the protection of humans, animals, or the environment, can be obtained by calling the National Pesticide Telecommunications Network information phone number, 1-800-858-7378 or the New York State Department of Health Center for Environmental Health Info line at, 1-800-458-1158.

The Manufacturers Safety Data Sheet and the Product Label for the products to be used, may be reviewed by making an appointment with the Director of Facilities at the Facilities Office within the Bernabi Building of the Spencerport Central School District, 1 Bernabi Road, Spencerport, NY 14559, 585-349-5195.

Application Purpose: Vegetation/Weed Control

Date/Time of Application: September 30, 2023

Locations: Districtwide around building perimeter, signs, generator, fence lines, curbs, courtyards, poles, and tree rings: Administration Bldg., Bernabi, Bus Garage, Canal View, Cosgrove, High School, Maintenance Bldg., Munn, Taylor and Transportation

Locations will be treated and posted with the proper signs for the following 24 hours.
