3. **BOARD RECOGNITION**

FIRST Robotics Team 3015

Mr. Crumb congratulated the First Robotics Team, the parents, the mentors and the advisors for their efforts. Mr. Gallina noted that 60 students were on the team this past year and a "JV" team was developed as well. He also thanked the 18 business partners. Students provided their perspective and appreciation of being on the First Robotics Team. They shared how their experiences have impacted their futures and college decisions. Building social skills, meeting deadlines, teamwork in a real work environment, marketing, community involvement, and networking with judges and other students were some of the other key advantages of being a part of the First Robotics Team.

Presentation skills, acknowledging accomplishments and recruitment efforts were also developed. Mr. Gallina recognized Ms. Mancuso and Mr. Montois for their efforts as advisors for the club. He also shared the various accomplishments and successes that the Team Robotics 3015 obtained with reaching the national finals with 64 teams out of 3500 teams. He noted that this year's scholarships reached another \$86,000 bringing the total to approximately \$662,000 since Robotics began.

Mr. Sweeney acknowledged the growth and accomplishments of the team. He noted how these experiences have enhanced the development of the students' 21st Century transferrable skills to be taken into the next steps in their lives. He shared that this program supports the school district's mission and echoed the appreciation that the students did for their advisors.

Mr. Crumb thanked the mentors for their countless hours and support of the parents.

5.25 Establish Date for Organizational Meeting

Mr. Crumb recommended the following resolution to establish our annual Board of Education Organizational meeting on Tuesday, July 14, 2015 at 6 PM. Education Law says the Organizational Meeting must be held on the first Tuesday in July unless it conflicts with a holiday or the Board passes a resolution to conduct the meeting in the

first fifteen (15) days of July. As previously presented, holding our organizational meeting on Tuesday, July 15th minimizes potential conflict with the holiday weekend and may afford us the opportunity to establish the 2015-16 tax rate based on receipt of the final property tax assessments.

RESOLUTION TO ESTABLISH THE 2015-16 ORGANIZATIONAL MEETING

WHEREAS, Education Law §1707(1) requires all New York State central school districts to conduct their annual organizational meeting for the new school year on the first Tuesday in July, and

WHEREAS, Education Law §1707(2) provides an opportunity for all New York State central school districts to schedule this meeting on an alternate date during the first fifteen (15) days of July.

BE IT RESOLVED that the Spencerport Central School District's Board of Education establishes its 2015-16 Organizational Meeting to occur on Tuesday, July 14, 2015 at 6 PM in the District Office rooms 15 and 17.

5.26 Athletic Bids

On May 12, 2015 the district opened sealed bids on a number of athletic items for the 2015-2016 school year. Our staff has reviewed all bids and our recommendations follow

5.27 Withdrawal of Disciplinary Charges

Mr. Crumb recommended the following resolution for your approval:

BE IT HEREBY RESOLVED, that the Board of Education of the Spencerport Central School District authorizes the Superintendent to withdraw the Section 75 charges proffered against an employee on April 17, 2015.

Ms. Gillette had raised a question about reviewing how we are determining our coaching salaries as a future topic.

Mr. Zale had a question about 5.21 and the positions that were being reduced. He is interested in how we can continue to look for keeping authentic learning opportunities for our students and providing direction for these type of course.

Mr. Bracken made a motion and Ms. Gillette seconded the approval of the Consent Agenda as presented.

6. BOARD OF EDUCATION

6.1 President's Report and Communication

Mr. Sweeney shared that the meeting with the Budget Focus Group to reflect on this year's budget process was valuable. He noted that some good ideas were generated like getting students more involved and brainstorming ways to get more voters out. He also shared that the conversation also resulted in inviting members of the focus group back in for a couple of check points during the year to see how the budget is progressing.

Mr. Sweeney reminded board members that with the end of the year events coming up to feel free to join them if possible as this is a great way to celebrate. He also encouraged board members to indicate if they will be participating in the graduation ceremony.

6.2 Board of Education Members' Reports

Mr. Gibbardo shared that he visited Bernabi to participate in their Bernabi Reads event and that he is helping with the installation of additional playgroup equipment this Saturday.

6.3 Discussion about SAAC (Student Athletic Advisory Committee)

Mr. Sweeney asked Mr. Gibbardo and Mr. Crumb to share their summary of a meeting with a community member interested in having a Student Athletic Advisory Committee (SAAC). Mr. Gibbardo provided a PowerPoint to summarize some key points.

Mr. Bracken inquired about how the development of this idea with parent representatives goes beyond the boosters club. There was discussion about how student athletes have a chance to be heard and how parents can have a chance to exchange common thoughts about a situation. Mr. Sweeney asked if there is a need to look at a committee as outlined or does the Board of Education need to have a better understanding of how athletics works.

Mr. Bracken shared that if there is a need to have a better channel to the Athletic Director then we need to do that. Mr. Sweeney added that he would like to know more about the role of this committee. Ms. Gillette shared that she couldn't imagine a committee like this not involving the Athletic Director. Mr. Zale shared that the components of this presentation suggests that there is a systemic problem and that it be solved through the systems we have and gave new coaching positions being added as an example.

Mr. Sweeney suggested that this topic be added to our Board of Education retreat for this summer.

Mr. Crumb shared that years ago the Athletic Director had a "Captains Council" and that this may be something that he considers starting back up.

Mr. Oberlin shared his frustration with the experiences his children have had the past few years. He suggested that we stay focused on our mission and we follow that for coaching and gave Robotics as an example.

Ms. Gillette supported the concept of this as a summer retreat topic and other topics needing some scope and oversight. Mr. Bracken asked that this not be something that takes all year to make a decision on. It was discussed to have Mr. Pelin join the Board for these conversations.

6.4 Discussion about two (2) student Ad-hoc Representatives n BOE

Mr. Sweeney shared that Mr. Crumb has put together some recommended language for a policy that would support student involvement in the work of the Board of Education. Mr. Bracken shared that when a student joined the School-to-Career Advisory Council it was a valuable experience and he would be in support of some opportunity for student input. Mr. Zale agreed that this is a great learning opportunity for students. Board members discussed the possible ways students could be involved and how they could provide input. Ms. Gillette shared that she wasn't supportive of students being on the board but was supportive of involving student representatives from perhaps Student Council. She suggested that this might be another summer retreat discussion on how we use our time at board meetings with perhaps a students' corner portion of board meetings. Mr. Oberlin supported the idea and the value of student input. Mr. Gibbardo shared that perhaps they could report out like board members do. Mr. Sweeney supports the idea and having a consistent set of students helps for continuity of conversations.

Mr. Sweeney asked board members to send any questions or suggestions to Mr. Crumb or him by June 3, 2015 to help formulate a plan for upcoming discussions.

7. SUPERINTENDENT'S REPORT

7.1 High School Assessments

Mr. Zinkiewich introduced two sophomore students that helped to provide their perspective on assessments. He also introduced Mr. Allen who provided a summary of our work as a district in our philosophy of assessments. Mr. Allen provided details on summative and formative assessments and how these are used to support our work with learning. Mr. Zinkiewich highlighted how important it is to define how important the role of assessment is with our work with the students and teachers. He shared that the public is demonizing assessments and our profession needs to do a better job communicating with our community the impact that they have on teaching and learning. With Teaching is the Core grant, teachers at 5th and 8th grade conducted an audit of current assessments and determined gaps in our current practice. They created performance-based assessments that will serve as an exemplar for the work that will occur on June 26, 29, and 30 with teachers from all grade levels. This grant will afford the district the opportunity to design performance-based assessments in all grade levels in the area of humanities and they will be implemented during the 2015-2016 school year. Members from the Assessment Design Team have been working with a world renowned expert in the field, Giselle Martin-Kniep, throughout this process and will lead their colleagues through this work at the end of the school year.

In January, Ms. Martin-Kniep conducted an interview with a group of high school students and discussed their experiences with assessments. A video capturing this conversation shared with the board of education and then Mr. Zinkiewich asked the two high school students to highlight their experience thus far. Meriah Evans and Abigail Snider shared how the common core impacts their academic day and they discussed the different "script" that each discipline follows. Specifically, they shared the learning experiences that they have encountered in ELA, math, science, social studies, and their electives. The summarized their thoughts in the following manner:

- Shared testing stress and the impact that a low grade can have on their quarterly average
- Shared more real life examples in lessons
- Chemistry flipped classroom example
- Grade Cam – quick feedback/accountability (stress free)
- Students must be disciplined in order to be successful in high school
- Advisement and Activity Period only work if a student takes initiative
- It doesn't feel that we're being assessed in ELA because it isn't a traditional assessment
- Social Studies – Gallery Walks

- Multiple Choice still plays a role because they appear on Regents exams, SAT, and when attempting to get a driver's permit

Reflections:

Mr. Bracken asked the students about the amount of experiential opportunities that they are afforded. The students shared that it depends on who you have as a teacher and what they do to provide those opportunities. Mr. Zinkiewich shared that we need to shift our practices and incorporate additional performance-based assessments for our students and minimize the amount of test preparation that occurs at the secondary level. Mr. McCabe, high school principal, noted that he has been working with his social studies team on additional authentic assessments. He also shared that forecasted for next year, the tradition midterms won't be a "big" mid-term grade but will be more aligned with the common core. The goal is to focus on shorter exams with more timely feedback.

Board members thanked the students for their presentation and confidence. They also noted the format of student taped videos this year has been valuable.

Mr. Sweeney asked the students if by being boxed in with the choices and time in the schedule, would you or students in general take advantage of more time being available to take what you want. As an option, the students said that would be valuable. Mr. Crumb thanked the students, Mr. McCabe, Mr. Allen and Mr. Zinkiewich for putting together these assessments.

7.2 Budget Vote/Exit Survey Review

Mr. Crumb shared the exit poll and budget development process with the board members. He began with the Monroe County 2015-2016 Budget Data and that Spencerport has the lowest levy increase. He noted that all of those above us had approved levels that were above our allowable cap. Next, he shared that our total vote was 1214 voters. When reviewing vote history our "after work" timeframe was when the majority of our voters voted. He provided a vote history from 1990 and noted that when there are contested board member races we have more people joining the polls. The exit survey data was shared and reflection on voter perspective was reviewed by board members. It was clear that the Cornerstone and our district web site were the number one sources of budget information used by the voters. Parents of current students were our largest voting group.

Mr. Crumb asked for feedback from board members on our budget focus group, our communication efforts and our voter/poll process. One suggestion was to make the Cornerstone more prominent on the web site. We discussed the value in having paper copies of the Cornerstone and would that make a difference. It was noted that every other month a paper copy goes out and our budget edition is a paper copy.

Mr. Oberlin has noted that the budget vote percentages have increased in terms of approval rates and believes that the communication process is a large reason for this. Mr. Sweeney agreed with this and believes we have been more transparent.

Mr. Bracken shared that the budget process and the need to look at the bigger picture is helpful. He also suggested that when we get down to the final budget, that if there are downsizes, that the board members are made aware.

Board members shared that the process went well this year.

7.3 Financial Report

Mr. Wood reviewed the financial report for the period ended May 15, 2015. The revenue projections decreased from last month due to adjustments for Medicaid and Monroe County sales tax. From an expenditure perspective, Mr. Wood shared he made some aggressive projections with utilities, personnel changes, and benefits changes, and is estimating being under budget by approximately \$1.7 million. He then reviewed the projected fund balance for year end and based on the estimated revenues and expenditures the District should be able to fully fund their portion of the first capital project payment toward the BOCES 2 capital project of approximately \$1.9 million.

A motion was made by Mr. Zale and seconded by Mr. Bracken to accept the financial report as presented.
